ALL TRANSPORTATION PREPAID ON CASH ORDERS

ORDER PROMPTLY

Orders will be filled in rotation, as received. Our stock of some varieties is limited. We shall reserve enough of each for our Spring trade, so as soon as our surplus is sold, these Extra attractive Fall Prices will not Apply.

BETTER ORDER EARLY.

SHIPMENT

Indicate on your order whether you want Fall or Spring shipment. Fall shipments will begin about the middle of November—Spring shipments early in March. Transportation Prepaid on all orders from this Price List, if you send cash with order.

GIFT BOXES

Most Attractive  Splendid Bulbs

\$1.55 12 Extra Fine Varieties, all Labeled **\$1.00**
 Regular Value **SPECIAL** 

IN A HANDSOME GIFT BOX

Most appropriate for Christmas Gifts, Birthdays, Anniversaries and all other Special Occasions.

Each box contains one each of all the following varieties:

	Price		Price		Price
Betty Joy.....	\$.15	Mauve Belle.....	\$.15	Priority.....	\$.10
Break O' Day.....	.10	Mary Pickford.....	.05	Rubella.....	.10
Gladdie Boy.....	.20	Opalescent.....	.10	Superior.....	.30
Lucette.....	.10	Piccadilly.....	.15	Theda.....	.05

Mailed to you or to any address you select in the United States.—Postpaid—with your card inclosed.

No discount from this Special Gift Box Price.

Here is our **Digging-time** low price list. Much lower priced than next Spring's will be.

Many Glad buyers have formed the habit of buying their bulbs each year in the Fall, because (like us) they like to handle the bulbs over during the Winter, nurse them, and dream of the beauties of color, design and gracefulness they will show next summer—**AND THEY SAVE CONSIDERABLE MONEY, COMPARED WITH BUYING NEXT SPRING**, when the rush is on and the supply of many varieties short, and consequently much higher in price.

We give extra bulbs for discounts, running up as high as 50% of your order. See the discount schedule.

If you wish to enter your order now, turn to the order sheet and help yourself to the dotted line.

In the first column—1¼" and UP—you may expect bulbs anywhere from 1¼" to 2" diameter. We will try to fill your orders with some bigger and some just 1¼". Don't ask us to give you all 2" bulbs. The other fellow also wants some of them. A 2" bulb may give you more spikes but the 1¼" will probably give you the best spike.

Where we quote on bullets per 100 you may expect to get 100 or more. Where quoted per 1000 we will not attempt to count but will use a small measure. If bullets run larger than average size you may receive a few less than 1000; but if smaller than average you will receive more than 1000.

We will not make substitutions unless directed by you to do so.

No orders for less than \$1.00

If your order amounts to \$2.00 or more we will hold stock for you if you enclose remittance covering 25% of the order. We will ship C. O. D. for the balance plus transportation charges.

We guarantee safe arrival and good vigorous, healthy stock.

We guarantee bulbs to be true to name but cannot guarantee bulblets to grow or to be true to name. However we do our best to give you what you order. If you are not satisfied with any stock we send, return at once, and money will be refunded.

Depends on what you want to do with them.

Yep, I know you want to plant 'em.

FOR BEST FLOWERS IN YOUR GARDEN NEXT SUMMER order 1¼" and UP. Next size 1" to 1¼" will flower but not as long spikes, or as many spikes.

If you want to wait for best flowers the second year, get $\frac{3}{4}$ " to 1" or $\frac{1}{2}$ " to $\frac{3}{4}$ ". Even $\frac{1}{2}$ " bulbs will give some flowers the first year.

If you want bulblet increase buy the two smaller sizes.

Bulblets are the hard shell increase and will not flower the first year.

Got our ole Cash Register all greased up; and want to see how it will work.

YOURS,

"Bill,"
